

## ROCKCLOSE® Insulated DPC

ROCKCLOSE® Insulated DPC is an insulated non-combustible cavity closer. The product is designed to minimise thermal bridging around windows and doors in first-fix cavity wall installations with a returning inside leaf. Designed to be installed as work proceeds between the outer masonry leaf and internal closer block prior to the frames being fitted.

DPC length: 1300mm. DPC width: 180mm. Pallet Size 1200mm x 1200mm

Product Code	Thickness (mm)	Width (mm)	Length (mm)	Linear m/ Pallet	Made to Order	MOQ (Linear m)	List Price/ Linear m
265258	20	100	1200	800	•	200	€42.36
265265	30	100	1200	640	•	200	€47.76
265266	50	100	1200	320	•	200	€49.43

ROCKCLOSE® orders cannot be used to contribute towards mixed loads. The lead times for these products can vary and will be confirmed on receipt of order.

## High Performance Partial Fill Cavity Slab

High Performance Partial Fill Cavity Slab is a semi-rigid partial fill insulation solution for masonry and framed cavity wall construction. It is designed to withstand typical conditions on-site and absorb any irregularities on the inner leaf. Consisting of a robust outer surface engineered to a resilient inner face. The slabs knit together when tightly butt jointed, eliminating heat loss caused by gaps.

Lambda 0.035 W/mK, Lambda 0.034 W/mK\*
