

ISOVER Acoustic Roll

A glass mineral wool roll providing high levels of acoustic insulation in partitions, walls and floors to meet acoustic requirements in domestic and non-residential applications.

Product Features

- Thermal Conductivity 0.036 W/mK.
- Excellent Acoustic Performance.
- Excellent Fire Safety - A1 Fire Rated.
- Vapour permeable breathable insulation.
- Improves energy performance and reduces heating & cooling costs.
- Easy to install. Friction fits between timber studs/joints.
- Made from recycled glass. Minimal manufacturing and on-site wastage. Low carbon footprint at manufacture and during transport.
